COMPUTER TUTOR

We teach you at your home at your pace!

Fred Leff is very knowledgeable at using the computer. With over 500 students/repair customers, he has been successful at fixing problems and setting up computers so the problems don't come along. WPXI ran a story on protecting yourself against hackers this month. Let Computer Tutor do that for you.

Have you just bought a new computer? Do you feel intimidated by it? Let Fred come to your home and fix or teach you how to use your computer the way it was meant to be used! Fred taught his 76 year old Mother to use her computer, they spoke over it face to face since 1996! He can do that for you too!
