How much would it cost you to pass out your business card to thousands of potential customers each week? Well, you'd first have to have the cards designed and printed. Then you'd have to either pay someone to distribute them, or pay for postage to mail them, or go door to door yourself. It would cost you hundreds of dollars ... and that's just for ONE time. For only \$50 per month, your business card can be seen here by thousands of potential customers, in your local area. The reason these cards don't change very often is that THEY WORK! And, by the way, if you don't have a current business card, we'll design one for you ... So call NOW... and put YOUR business card to work! 760-365-6348
